

FUTURE CHEMICALS SOLUTIONS LTD ENVIRONMENTAL POLICY DOCUMENT

Effective Date: APRIL 2024

Purpose

This Environmental Policy reflects our commitment to protecting the environment by minimizing the impact of our operations and promoting sustainable practices throughout our business activities.

Scope

This policy applies to all aspects of our operations, including product development, manufacturing, distribution, and waste management.

Our Commitments

- Regulatory Compliance**
We adhere to all applicable environmental laws, regulations, and industry standards, ensuring that our practices align with national and international environmental guidelines.
- Pollution Prevention**
We aim to minimize emissions, effluents, and waste generated during manufacturing by employing environmentally friendly technologies and best practices.
- Resource Efficiency**
We are committed to the efficient use of natural resources, including water, energy, and raw materials. Our efforts include optimizing processes, reducing waste, and promoting recycling initiatives.
- Sustainable Product Development**
We prioritize the development of cleaning solutions that are biodegradable, non-toxic, and environmentally responsible without compromising product performance.
- Environmental Awareness and Training**
All employees are provided with training to raise awareness about environmental issues and their responsibilities in contributing to sustainable operations.
- Continuous Improvement**
We regularly monitor our environmental performance through audits and reviews, setting measurable objectives to improve our environmental impact over time.
- Engagement with Stakeholders**
We actively engage with customers, suppliers, and regulatory bodies to promote environmentally responsible practices across our value chain.

Implementation and Review

This Environmental Policy is communicated to all employees and stakeholders and reviewed annually to ensure its effectiveness and relevance. Senior management is responsible for allocating the necessary resources to achieve our environmental goals and drive continuous improvement.
